

The Skykomish Story

Two of Sky's old paradigmgers recently emailed the Hotel, stating 'The Mushroom Factory' was causing us (The Skykomish Hotel) to lose credibility with locals.

Let's clear the air of misperceptions. There are only two reasons Hotel's owners and agents maintain and update the website, attend meetings, video events, produce videos and write articles:

1. To protect the Hotel from individuals and entities wanting to denigrate, take or claim the Hotel.
2. To provide micro level video and scripting content to an international off-shore group that will produce a world class documentary and movie, graphically detailing how the Greatest Economic and Military Power on earth became a Third World nation.

Hotel owners fully understood during the Mackner era that the physical Skykomish Hotel had been lost and the real mission was to digitally preserve and document the Hotel, while also showing how an industrious small town slowly but deliberately chose to descend from prosperity into the abyss.

Hotel owners have presented Sky with multiple opportunities to embrace the 21st century. All efforts have been rebuffed.

Sky's present mayor and council were fully apprised that the Hotel had been leased to a video production company, a real estate company and an artist's gallery prior to being returned to owners following environmental remediation, and that the only thing Hotel owners required was that operational utilities be restored as they existed when the Hotel was turned over for remediation.

The Town's new Mayor, Fred Black, made it clear during several meetings that the Town would make NO effort to promote or accomplish this. Hotel owners met privately with a member of Council, suggesting the entire Council meet in open session with Hotel owners to seek solutions. This effort too was rebuffed.

Sky's School and the Post Office will be lost to technological advancement. This is a certainty. The only question is the date on the calendar.

The Skykomish Hotel will be lost because Sky citizens chose to hang out at the Post and Cascadia rather than Town Hall.

This story is not new. It's been repeated throughout history. Click [Here](#) to see China's new aircraft carriers and what this means for America's future.
