Council Candidate Ejected from Meeting

Skykomish Council candidate Rick Aydelotte was silenced and ejected from Monday evening's Council meeting for refusing to obey Mayor Black's illegal order to shut up and stand where specified.

Others, as usual, were allowed to speak at will and address Council from seats and other places convenient to them.

You make the decisions that shape Skykomish.

You decide whether Mayor and Council discriminate, harass and retaliate at will.

You decide whether citizens should fear ejection and arrest for exercising fundamental, constitutionally guaranteed rights.

You decide if Sky's economy should include entrepreneurs, small business and private property.

Is the current centrally planned, state owned economic model better suited to provide jobs, maintain property values, build tax revenues and safeguard your freedom, liberty and future?

You decide whether one time BNSF 'Mitigation Capital' is spent on boondoggle fantasies.

You decide whether a powerful Corporate Oligarch will continue to control your town.

You decide whether Mob Rule or the Rule of Law will govern.
