Keep the current speed limit and let the developer put a pedestrian bridge over the highway.

Jim,

You're right on. It's time to end socialism for the wealthy. While the developer should certainly fund a pedestrian overpass or tunnel, this is just the tip of a dark ugly iceberg that has little to do with pedestrian or speed limit issues or concerns. We'll be addressing these issues in detail in a feature article on our website. Your clarity and willingness to speak out are appreciated. Thanks!
