Town of Skykomish
Attention: Clerk
PO Box 308
Skykomish, WA 98288

Re: Freedom of Information Act

Request Dear Clerk,

Under the Washington Public Records Act, §42.56 et seq., I am requesting:

It has come to my attention that replacement fill soils used throughout the Town during environmental remediation efforts may have been improper and compaction procedures inadequate, and that these conditions could lead to serious structural damage, failure and potential loss of life due to soil liquefaction during seismic events.

Please provide all geo-tech studies, reports, recommendations, data, certifications, inspections, communications, invoices, bills, bills of lading, etc. demonstrating geo-tech practices and compliance between the Town, Town officials, Clint Stanovsky, Washington State Department of Ecology, BNSF Railway (including its contractors) and non-privileged communications between the Town and its environmental legal counsel (Carson Law Group).

I am requesting these records on a CD. **Please mail all correspondence and the CD to me at:** 2885 Sanford Ave SW #29339, Grandville, MI 49418.

This information is not being sought for commercial purposes.

The Washington Public Records Act requires a response to this request be made within five business days. If access to the records I am requesting will take longer, please contact me with information regarding when I can expect to receive copies.

If you deny any or all of this request, please cite each specific exemption you claim justifies the refusal to release the information and notify me of appeal procedures available to me under law, rule or regulation.

Thank you.
